

Arjun Mehta

Data Scientist

AM

Jaipur, India arjun.mehta@example.com Fictional sample

01 Professional profile

Data Scientist with an illustrative 11-year career focused on experimentation, forecasting and interpretable decision support. Core strengths include Python, SQL and Statistical modelling. Selected examples describe the challenge, contribution and handover materials.

02 Professional experience

Jul 2022 - Present

Data Scientist

Asterline Applied Intelligence Lab · Jaipur

Delivered defined workstreams in experimentation, forecasting and interpretable decision support, coordinating reviewers and delivery partners.

- Defined comparable cohorts, checked missingness and separated observed associations from causal claims.
- Compared seasonal baselines with feature-based forecasts using time-ordered validation.

Jul 2018 - Jun 2022

Data Scientist

Northmere Applied Intelligence Lab · Jaipur

Developed hands-on experience across experimentation, forecasting and interpretable decision support, with a defined review process.

- Used Python and experiment design on assigned work; recorded decisions so colleagues could understand the approach.
- Prepared handover materials and incorporated specialist feedback before closing the workstream.

Jul 2015 - Jun 2018

Junior Data Specialist

Cedarfield Applied Intelligence Lab · Jaipur

Built foundations through supported assignments, observation and practical feedback.

- Assisted with SQL and data visualisation, checking work with an experienced reviewer.
- Kept organised work records and developed clear handover habits through supervised practice.

EXPERTISE

Core capabilities

Python

SQL

Statistical modelling

Experiment design

Data visualisation

Causal reasoning

SELECTED WORK

Retention cohort study

Analysis notebook and uncertainty brief

Stock demand forecast

Forecast evaluation and planning notes

LANGUAGES

English - professional working

Hindi - professional working

CAREER CONTEXT

11 years in this illustrative career.

Three appointments.

Full work examples on page 2.

03 Experiments & evaluations

Find the signal. Explain the uncertainty.

WORK EXAMPLE 01 / ILLUSTRATIVE

Retention cohort study

Context
A single retention average obscured product differences.
Contribution
Defined comparable cohorts, checked missingness and separated observed associations from causal claims.

Prepared for handover
Analysis notebook and uncertainty brief

WORK EXAMPLE 02 / ILLUSTRATIVE

Stock demand forecast

Context
Promotional demand distorted replenishment estimates.
Contribution
Compared seasonal baselines with feature-based forecasts using time-ordered validation.

Prepared for handover
Forecast evaluation and planning notes

04 Education

2013 – 2015

M.Sc in Data Science
Asterbridge Institute of Professional Studies
Specialist study with a practice focus on Python and SQL.

2009 – 2013

Bachelor of Technology / Science in the relevant discipline
Cedarhaven College of Applied Studies
Foundation study, practical assignments and supervised learning. Fictional institution and qualification record.

05 Professional development

2024

Python - advanced practice workshop
Scenario exercises and peer review in experimentation, forecasting and interpretable decision support.

2025

Experiment design - reflective practice seminar
Applied learning reviewed through a bounded example and a written reflection.

Continuing learning examples, not licences or independently verified certifications.

06 Practice & evidence notes

Work focus	Evidence status	Contribution scope
Experimentation, forecasting and interpretable decision support	Illustrative work descriptions; no source artefacts attached	Owned the stated workstream, not all team outcomes

Every employer and institution in this CV is fictional. The two work examples describe individual contributions; supporting artefacts and externally measured outcomes are not supplied. Replace example information with accurate records and permission-cleared work before using this CV.
