

Dev Mehta

Cloud Engineer

DM

Ahmedabad, India dev.mehta@example.com Fictional sample

01 Professional profile

Cloud Engineer with an illustrative 11-year career focused on cloud foundations, least-privilege access and repeatable environments. Core strengths include Infrastructure as code, Networking and IAM. Selected examples describe the challenge, contribution and handover materials.

02 Professional experience

Jul 2022 - Present

Cloud Engineer

Asterline Infrastructure Services · Ahmedabad

Delivered defined workstreams in cloud foundations, least-privilege access and repeatable environments, coordinating reviewers and delivery partners.

- Created reviewed infrastructure modules and environment-specific configurations with explicit ownership.
- Documented restore prerequisites and ran a scoped recovery exercise with application owners.

Jul 2018 - Jun 2022

Cloud Engineer

Northmere Infrastructure Services · Ahmedabad

Built a scoped practice in cloud foundations, least-privilege access and repeatable environments, with a defined review process.

- Used infrastructure as code and linux on assigned work; recorded decisions so colleagues could understand the approach.
- Prepared handover materials and incorporated specialist feedback before closing the workflow.

Jul 2015 - Jun 2018

Infrastructure Associate

Cedarfield Infrastructure Services · Ahmedabad

Built foundations through supported assignments, observation and practical feedback.

- Assisted with networking and backup design, checking work with an experienced reviewer.
- Kept organised work records and developed clear handover habits through supervised practice.

EXPERTISE

Core capabilities

Infrastructure as code

Networking

IAM

Linux

Backup design

Cost allocation

SELECTED WORK

Environment foundations

Environment blueprint and change log

Restore rehearsal

Recovery runbook and exercise record

LANGUAGES

English - professional working

Hindi - professional working

CAREER CONTEXT

11 years in this illustrative career.

Three appointments.

Full work examples on page 2.

03 Infrastructure work

Infrastructure designed to recover.

WORK EXAMPLE 01 / ILLUSTRATIVE

Environment foundations

Context

Development and production diverged through manual changes.

Contribution

Created reviewed infrastructure modules and environment-specific configurations with explicit ownership.

Prepared for handover

Environment blueprint and change log

WORK EXAMPLE 02 / ILLUSTRATIVE

Restore rehearsal

Context

Backups existed without a practised restore path.

Contribution

Documented restore prerequisites and ran a scoped recovery exercise with application owners.

Prepared for handover

Recovery runbook and exercise record

04 Education

2013 – 2015

M.Tech in Cloud Computing

Asterbridge Institute of Professional Studies
Specialist study with a practice focus on infrastructure as code and networking.

2009 – 2013

Bachelor of Technology / Science in the relevant discipline

Cedarhaven College of Applied Studies
Foundation study, practical assignments and supervised learning. Fictional institution and qualification record.

05 Professional development

2024

Infrastructure as code - advanced practice workshop

Scenario exercises and peer review in cloud foundations, least-privilege access and repeatable environments.

2025

Linux - reflective practice seminar

Applied learning reviewed through a bounded example and a written reflection.

Continuing learning examples, not licences or independently verified certifications.

06 Practice & evidence notes

Work focus	Evidence status	Contribution scope
Cloud foundations, least-privilege access and repeatable environments	Illustrative work descriptions; no source artefacts attached	Owned the stated workstream, not all team outcomes

Every employer and institution in this CV is fictional. The two work examples describe individual contributions; supporting artefacts and externally measured outcomes are not supplied. Replace example information with accurate records and permission-cleared work before using this CV.
