

Aditi Mehta

DevOps Engineer

AM

Jaipur, India aditi.mehta@example.com Fictional sample

01 Professional profile

DevOps Engineer with an illustrative 11-year career focused on delivery pipelines, service observability and operational handover. Core strengths include CI/CD, Containers and Kubernetes. Selected examples describe the challenge, contribution and handover materials.

EXPERTISE

Core capabilities

CI/CD

Containers

Kubernetes

Git

Service monitoring

Incident review

SELECTED WORK

Deployment pipeline

Pipeline definition and rollback guide

Actionable service alerts

Alert inventory and service runbook

LANGUAGES

English - professional working

Hindi - professional working

CAREER CONTEXT

11 years in this illustrative career.

Three appointments.

Full work examples on page 2.

02 Professional experience

Jul 2022 – Present

DevOps Engineer

Asterline Infrastructure Services · Jaipur

Delivered defined workstreams in delivery pipelines, service observability and operational handover, coordinating reviewers and delivery partners.

- Built staged pipeline gates, immutable artefacts and an approval-controlled production step.
- Mapped alerts to service symptoms and attached owner-specific response notes.

Jul 2018 – Jun 2022

DevOps Engineer

Northmere Infrastructure Services · Jaipur

Supported progressively more complex work in delivery pipelines, service observability and operational handover, with a defined review process.

- Used CI/CD and git on assigned work; recorded decisions so colleagues could understand the approach.
- Prepared handover materials and incorporated specialist feedback before closing the workstream.

Jul 2015 – Jun 2018

Infrastructure Associate

Cedarfield Infrastructure Services · Jaipur

Built foundations through supported assignments, observation and practical feedback.

- Assisted with containers and service monitoring, checking work with an experienced reviewer.
- Kept organised work records and developed clear handover habits through supervised practice.

03 Infrastructure work

Make delivery repeatable, not heroic.

WORK EXAMPLE 01 / ILLUSTRATIVE

Deployment pipeline

Context

Manual releases skipped checks under time pressure.

Contribution

Built staged pipeline gates, immutable artefacts and an approval-controlled production step.

Prepared for handover

Pipeline definition and rollback guide

WORK EXAMPLE 02 / ILLUSTRATIVE

Actionable service alerts

Context

Noisy alerts obscured user-impacting incidents.

Contribution

Mapped alerts to service symptoms and attached owner-specific response notes.

Prepared for handover

Alert inventory and service runbook

04 Education

2013 – 2015

Postgraduate Diploma in Site Reliability

Asterbridge Institute of Professional Studies

Specialist study with a practice focus on CI/CD and containers.

2009 – 2013

Bachelor of Technology / Science in the relevant discipline

Cedarhaven College of Applied Studies

Foundation study, practical assignments and supervised learning. Fictional institution and qualification record.

05 Professional development

2024

CI/CD - advanced practice workshop

Scenario exercises and peer review in delivery pipelines, service observability and operational handover.

2025

Git - reflective practice seminar

Applied learning reviewed through a bounded example and a written reflection.

Continuing learning examples, not licences or independently verified certifications.

06 Practice & evidence notes

Work focus	Evidence status	Contribution scope
Delivery pipelines, service observability and operational handover	Illustrative work descriptions; no source artefacts attached	Owned the stated workstream, not all team outcomes

Every employer and institution in this CV is fictional. The two work examples describe individual contributions; supporting artefacts and externally measured outcomes are not supplied. Replace example information with accurate records and permission-cleared work before using this CV.
