

Samar Mehta

Cybersecurity Analyst

SM

Hyderabad, India samar.mehta@example.com Fictional sample

01 Professional profile

Cybersecurity Analyst with an illustrative 11-year career focused on defensive monitoring, incident triage and access review. Core strengths include SIEM, Log analysis and Incident triage. Selected examples describe the challenge, contribution and handover materials.

02 Professional experience

Jul 2022 - Present

Cybersecurity Analyst

Asterline Infrastructure Services · Hyderabad

Delivered defined workstreams in defensive monitoring, incident triage and access review, coordinating reviewers and delivery partners.

- Defined evidence fields, escalation thresholds and case-review checkpoints for a defensive monitoring workflow.
- Reconciled access inventories with approved owners and tracked review exceptions to closure.

Jul 2018 - Jun 2022

Cybersecurity Analyst

Northmere Infrastructure Services · Hyderabad

Developed hands-on experience across defensive monitoring, incident triage and access review, with a defined review process.

- Used SIEM and threat modelling on assigned work; recorded decisions so colleagues could understand the approach.
- Prepared handover materials and incorporated specialist feedback before closing the workstream.

Jul 2015 - Jun 2018

Infrastructure Associate

Cedarfield Infrastructure Services · Hyderabad

Built foundations through supported assignments, observation and practical feedback.

- Assisted with log analysis and access review, checking work with an experienced reviewer.
- Kept organised work records and developed clear handover habits through supervised practice.

EXPERTISE

Core capabilities

SIEM

Log analysis

Incident triage

Threat modelling

Access review

Evidence handling

SELECTED WORK

Alert triage playbook

Triage playbook and synthetic case log

Access review cycle

Access review register and remediation brief

LANGUAGES

English - professional working

Hindi - professional working

CAREER CONTEXT

11 years in this illustrative career.

Three appointments.

Full work examples on page 2.

03 Infrastructure work

Turn security signals into clear decisions.

WORK EXAMPLE 01 / ILLUSTRATIVE

Alert triage playbook

Prepared for handover
Triage playbook and synthetic case log

Context
Analysts investigated similar alerts inconsistently.

Contribution
Defined evidence fields, escalation thresholds and case-review checkpoints for a defensive monitoring workflow.

WORK EXAMPLE 02 / ILLUSTRATIVE

Access review cycle

Prepared for handover
Access review register and remediation brief

Context
Dormant access remained after team transfers.

Contribution
Reconciled access inventories with approved owners and tracked review exceptions to closure.

04 Education

2013 – 2015

M.Sc in Cybersecurity

Asterbridge Institute of Professional Studies
Specialist study with a practice focus on SIEM and log analysis.

2009 – 2013

Bachelor of Technology / Science in the relevant discipline

Cedarhaven College of Applied Studies
Foundation study, practical assignments and supervised learning. Fictional institution and qualification record.

05 Professional development

2024

SIEM - advanced practice workshop

Scenario exercises and peer review in defensive monitoring, incident triage and access review.

2025

Threat modelling - reflective practice seminar

Applied learning reviewed through a bounded example and a written reflection.

Continuing learning examples, not licences or independently verified certifications.

06 Practice & evidence notes

Work focus	Evidence status	Contribution scope
Defensive monitoring, incident triage and access review	Illustrative work descriptions; no source artefacts attached	Owned the stated workstream, not all team outcomes

Every employer and institution in this CV is fictional. The two work examples describe individual contributions; supporting artefacts and externally measured outcomes are not supplied. Replace example information with accurate records and permission-cleared work before using this CV.
