

Arnav Mehta

Automation Test Engineer

AM

Chennai, India arnav.mehta@example.com Fictional sample

01 Professional profile

Automation Test Engineer with an illustrative 11-year career focused on maintainable automated checks and dependable test environments. Core strengths include Playwright, TypeScript and API automation. Selected examples describe the challenge, contribution and handover materials.

02 Professional experience

Jul 2022 - Present

Automation Test Engineer

Asterline Quality Engineering Studio · Chennai

Delivered defined workstreams in maintainable automated checks and dependable test environments, coordinating reviewers and delivery partners.

- Replaced brittle selectors, isolated test data and made environment assumptions explicit.
- Created contract-focused API checks and published results in the delivery pipeline.

Jul 2018 - Jun 2022

Automation Test Engineer

Northmere Quality Engineering Studio · Chennai

Developed hands-on experience across maintainable automated checks and dependable test environments, with a defined review process.

- Used Playwright and ci integration on assigned work; recorded decisions so colleagues could understand the approach.
- Prepared handover materials and incorporated specialist feedback before closing the workstream.

Jul 2015 - Jun 2018

Test Associate

Cedarfield Quality Engineering Studio · Chennai

Built foundations through supported assignments, observation and practical feedback.

- Assisted with TypeScript and test data, checking work with an experienced reviewer.
- Kept organised work records and developed clear handover habits through supervised practice.

CAREER CONTEXT

11 years in this illustrative career.

Three appointments.

Full work examples on page 2.

03

Quality portfolios

Fast feedback. Credible tests.

WORK EXAMPLE 01 / ILLUSTRATIVE Reliable UI checks Prepared for handover Automation suite and stability review	Context End-to-end tests failed intermittently without product defects. Contribution Replaced brittle selectors, isolated test data and made environment assumptions explicit.
WORK EXAMPLE 02 / ILLUSTRATIVE API regression harness Prepared for handover Contract test pack and execution guide	Context Service changes required repeated manual verification. Contribution Created contract-focused API checks and published results in the delivery pipeline.

04

Education

2013 – 2015

Postgraduate Diploma in Test Automation

Asterbridge Institute of Professional Studies
Specialist study with a practice focus on Playwright and TypeScript.

2009 – 2013

Bachelor of Technology / Science in the relevant discipline

Cedarhaven College of Applied Studies
Foundation study, practical assignments and supervised learning. Fictional institution and qualification record.

05

Professional development

2024

Playwright - advanced practice workshop

Scenario exercises and peer review in maintainable automated checks and dependable test environments.

2025

CI integration - reflective practice seminar

Applied learning reviewed through a bounded example and a written reflection.

Continuing learning examples, not licences or independently verified certifications.

06

Practice & evidence notes

Work focus	Evidence status	Contribution scope
Maintainable automated checks and dependable test environments	Illustrative work descriptions; no source artefacts attached	Owned the stated workstream, not all team outcomes

Every employer and institution in this CV is fictional. The two work examples describe individual contributions; supporting artefacts and externally measured outcomes are not supplied. Replace example information with accurate records and permission-cleared work before using this CV.
