01 Professional profile

Research Fellow with an illustrative 18-year career focused on biological research, reproducible methods and collaborative analysis. Core strengths include Experimental design, Laboratory records and Data analysis. Selected examples describe the challenge, contribution and handover materials.

02 Professional experience

Jul 2021 - Present

Research Fellow

Asterline Research Institute · Jaipur

Delivered defined workstreams in biological research, reproducible methods and collaborative analysis, coordinating reviewers and delivery partners.

- Standardised the record structure and analysed variation within a supervisor-reviewed study plan.
- Screened and categorised relevant work, distinguishing established findings from open questions.

Jul 2015 - Jun 2021

Research Fellow

Northmere Research Institute · Jaipur

Developed hands-on experience across biological research, reproducible methods and collaborative analysis, with a defined review process.

- Used experimental design and literature synthesis on assigned work; recorded decisions so colleagues could understand the approach.
- Prepared handover materials and incorporated specialist feedback before closing the workstream.

Jul 2008 - Jun 2015

Research & Teaching Associate

Cedarfield Research Institute · Jaipur

Built foundations through supported assignments, observation and practical feedback.

- Assisted with laboratory records and research ethics, checking work with an experienced reviewer.
- Kept organised work records and developed clear handover habits through supervised practice.

03 Teaching & research contributions

Make the method as clear as the finding.

WORK EXAMPLE 01 / ILLUSTRATIVE Assay reproducibility study Prepared for handover Protocol notes and analysis notebook	Context Protocol variations made repeated experiments hard to compare. Contribution Standardised the record structure and analysed variation within a supervisor-reviewed study plan.
WORK EXAMPLE 02 / ILLUSTRATIVE Literature evidence map Prepared for handover Evidence map and research proposal draft	Context A proposed study lacked a clear account of conflicting evidence. Contribution Screened and categorised relevant work, distinguishing established findings from open questions.

04 Education

2005 – 2008 Ph.D. in Biological Sciences Asterbridge Institute of Professional Studies Specialist study with a practice focus on experimental design and laboratory records.
2001 – 2005 Bachelor-level study in the relevant discipline Cedarhaven College of Applied Studies Foundation study, practical assignments and supervised learning. Fictional institution and qualification record.

05 Professional development

2024 Experimental design - advanced practice workshop Scenario exercises and peer review in biological research, reproducible methods and collaborative analysis.
2025 Literature synthesis - reflective practice seminar Applied learning reviewed through a bounded example and a written reflection. Continuing learning examples, not licences or independently verified certifications.
